Using a working set limited to 1500 pages and 123 pages of data storage (excluding image)

Total number object records read (both passes): 2169  
of which 1067 were in libraries and 225 were DEBUG data records containing 23220 bytes

Number of modules extracted explicitly = 1  
with 22 extracted to resolve undefined symbols

104 library searches were for symbols not in the library searched

A total of 0 global symbol table records was written
